Motivated Full-Stack Developer looking to pursue a successful career as a Ruby/ROR programmer, also knowledgeable in multiple languages, frameworks, and technologies. Where my experience in pair programming and remote work will boost coding efficiency furthering our success.

SKILLS

Front-End: React, Redux, jQuery, HTML5, CSS3, SASS, Bootstrap.
Back-End: Ruby, Rails, PostgreSQL, C++, JavaScript.
Tools & Methods: Git, GitHub, Netlify, Render, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools.
Professional: Remote Pair-Programming, Teamwork, Mentoring, Communication skills.

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Development Student & Mentor   May 2022 – September 2022

Mastered intermediate and advanced topics in full-stack development while building multiple front-end projects both independently and via pair programming.

Online website — Created and developed a personalized website for an "Intercultural Exchange Mexico-Canada 2023".
- Built with: HTML, CSS, SASS, and JavaScript.

Awesome Books — Created and developed an app named "Awesome Books" where you can control a list of books that will be saved in the Local Storage.
- Built with: JavaScript, HTML, and CSS.

Pokedex — Created, developed, and designed a Pokedex of the famous Pokemon series made using pair programming.
- Built with: HTML, CSS, Webpack, and API.

MICROVERSE   Remote
Mentor (Volunteer)   June 2022 – Present
- Propose improvements to the organization, quality of the code, and general performance to more than 3 students per day.
- Provide tips and advice on how to stay motivated to keep the best attitude and get ahead of more than 30 coworkers per week.
- Support fellow developers, providing technical support through more than 50 code reviews.

ORGANIZATION   Veracruz, México
Software Developer IT Engineer   May 2019 – September 2021
- Developed and configured the fire fighting system reducing costs by 40% and increasing efficiency by 20%.
- Implemented in less than 3 weeks a scheduling system to improve the efficiency of my team by up 50%.

EDUCATION

MICROVERSE   May 2022 – February 2023
Remote Full Stack Web Development Program, Full-Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

UNIVERSIDAD VERACRUZANA
Electronic and communications engineering, Full-Time   August 2014 – November 2019

- Designed and built a 1:1 "Smart House" using Arduinos with C++ programming.
- President of the Institute of Electrical and Electronics Engineers (IEEE), travel to Colombia to represent Mexico.
